Cookies Policy

Occam Research Ltd Last updated: 9 November 2026

1. Introduction

This Cookies Policy explains how Occam Research Ltd ("we", "us", "our") uses cookies and similar technologies on www.occamresearch.com ("the Site"). It should be read alongside our Privacy Policy, which is available on the Site.

2. What Are Cookies and Similar Technologies?

Cookies are small text files stored on your device when you visit a website. Similar technologies, such as tracking pixels, work in a comparable way by collecting information when a web page loads. These technologies can help websites function, remember your choices and understand how a site is used.

3. Essential Cookies

Our Site is built and hosted using IONOS MyWebsite Now, which does not use cookies to run the Site. The only information stored on your device is a small record of the choices you make in our Privacy Settings, so that we do not ask you again on every page. This is strictly necessary and does not require consent.

4. Analytics

We use IONOS SiteAnalytics, provided by our website host IONOS, to understand how the Site is used. We do not use any other analytics tools. SiteAnalytics does not use cookies; it collects information through a tracking pixel and server log data, which may include:

- Pages visited
- Browser type
- Device type
- Time spent on pages

This information is used only by us, to produce aggregate statistics and improve the Site. IONOS does not pass it to third parties, and we do not use it for advertising or to identify individual visitors.
You can switch SiteAnalytics off at any time using the Privacy Settings link on the Site.

5. Advertising and Third-Party Cookies

We do not use advertising or marketing cookies, and we do not allow third parties to place cookies on the Site.
The Site contains links to external websites (for example, Substack). If you follow these links, those websites may set their own cookies, which are governed by their own policies rather than by us.

6. Managing Your Preferences

You can review or change your choices at any time using the Privacy Settings link on the Site. You can also manage or delete cookies and other stored data through your browser settings.

If you delete this data, your Privacy Settings choices will not be remembered and you will be asked again on your next visit.

7. Changes to This Policy

We may update this Cookies Policy periodically. The “Last updated” date will reflect the most recent version.

8. Contact
